Current Analytical Capabilities

- **Free Text search** – ability to perform text searches of narrative data ingested into the LInX system. Also provides proximity (“bomb” within 2 words of “threat”)and thesaurus capabilities.
- **Identity search** – find different representations of the same person using variants of name/dob/identifying numbers.

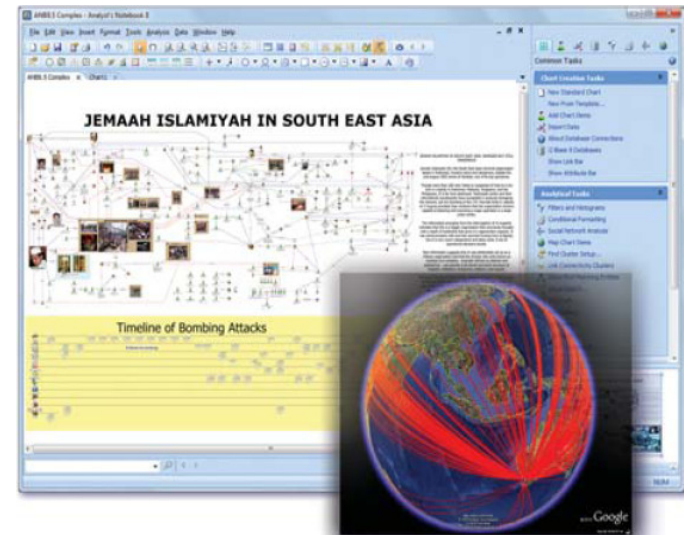

[Identity Search for JOHN MERLE MARTINSON](#) [Possible Associates of JOHN MERLE MARTINSON](#)

- **Link Analysis chart viewer** – ability to view structured and unstructured result sets on a Link Chart, walk data to reveal relationships to other entities, and transfer data to Analyst Notebook.
- **Mapping Capabilities** – ability to view LInX Search results on a map, and incorporate additional layers for analysis (critical infrastructure).

This information includes data that shall not be disclosed, duplicated, used, or otherwise disseminated—in whole or in part—for any purpose without the express written consent of Northrop Grumman Systems Corporation. The data subject to this restriction are contained in the sheets herein.

LInX Advanced Authentication

- LInX Release 4.2 contained security enhancements to comply with CJIS Security Policy (CSP) 5.0
 - Deployed to all production sites in August, 2012
 - Contains a risk-based authentication module that requires users to provide a 2nd factor of authentication if a variance in usage pattern is detected
 - Risk-based authentication design vetted through CJIS ISO
 - Additional enhancements for CSP 5.0 compliance
 - Password re-use (was 6, is now 10)
 - # of failed logins that will lock a user account (is now 5)

LInX Advanced Authentication

- LInX v4.2 also included the creation of a CJIS Administrator Role
- LInX user access to N-DEx is controlled by 2 user-level privileges that both default to enabled if N-DEx access is turned on for that LInX region
 - 1 that the LInX agency administrator can set/unset
 - 1 that the CJIS administrator can set/unset
 - LInX user must have both privileges set for N-DEx access
- Successfully completed audits in the following regions:
 - LInX Northwest – FBI Audit
 - LInX Southeast – State of Florida CSO Audit

LInX / N-DEx Integration Status
