

**LAW ENFORCEMENT INFORMATION EXCHANGE (LINX)
AND
REGIONAL AUTOMATED PROPERTY IDENTIFICATION (RAPID)**

**NORTH CAROLINA - CRIMINAL JUSTICE INFORMATION NETWORK
MEETING**

NOVEMBER 20, 2014

RALEIGH, NC

WELCOME AND OPENING REMARKS

- **Chief Frank Palombo (ret. New Bern PD)**
Program Manager – Carolinas LInX
- **Deputy Chief Mitch Cunningham**
Wilmington PD
- **Bob Moseley (ret. DC Police)**
Project Coordinator, NCR-LInX
Central Administrator, NCR-RAPID

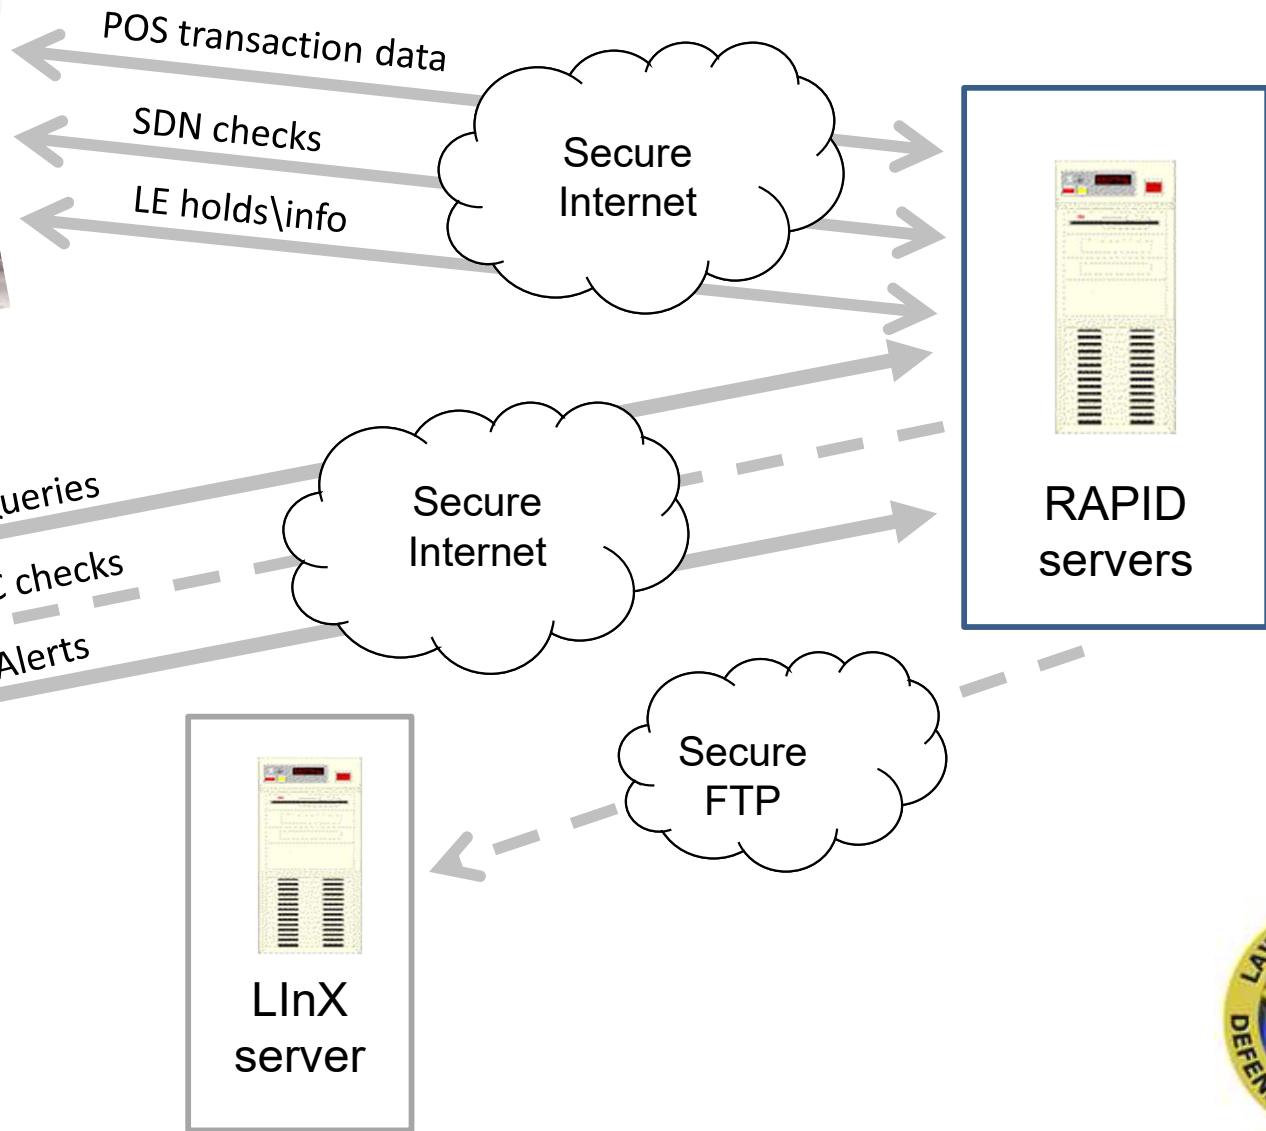

NCR-RAPID

- **Early adopter of regional concept**
- **First regional BWI model in U.S.**
- **Hundreds of specific requirements (wish list)**
- **RFP - received 10 proposal from vendors**
- **Established two committees – Technical and Financial**
- **Launched NCR-RAPID in 2004 to serve 22 COG jurisdictions in Maryland, DC and Virginia.**

NCR-RAPID Data Flow

Pawnshops

NCR-RAPID WAS AN INSTANT SUCCESS

- Regional perspective on pawning was shocking!
 - Exceptional 'Case Closure' report within six months
 - Led to a new grant offer from Congressman Moran
 - Several awards from IACP and others
-
- **Ten years later and the system is still running strong!**

COMPLIMENTARY SYSTEMS

- LInX is “Event Driven – Person Centric”
- RAPID is designed around Property
- RAPID interfaces directly to pawnshops
- LInX only interfaces LE Records
- LInX is not a system of record
 - pointer system
- **We need both LInX and RAPID!**

QUESTIONS

Eco-ATM?

I spotted this ecoATM at a Walmart here in Raleigh last night

We have a couple in one of our jurisdictions.

Good data for us – photos of customer, image of driver's license and fingerprint scan.... But serial numbers can be delayed if the phone won't power up.

CASE CLOSURE REPORT

- Also last night I got an email with a case closure report involving a pawn record found in LInX. Detectives where working a stolen auto ring but could not develop suspect names until an item from one of the stolen vehicles showed up in a pawnshop. Once the pawning theft was arrested he gave up the names of his associates in the auto theft ring.
