LINX BACKUP SLIDES

LINX BACKUP SOLUTION - OPTIONS

LINX BACKUP SOLUTION - OPTIONS

➤ Current Capability for LInX Regions

- Cold Backup - Offsite Backup Tape Storage Only
- Region's data backed up daily
- Approximate time to get a Region back up is 3-5 days depending on Region size and equipment availability
- Does not include daily updated data feeds from agencies

➤ NCR Capability (Alternative Option)

- Warm Backup – Offsite Oracle replication on minimal equipment with connectivity
- Data updated on backup – continuous with 1-2 hours lag time from production system
- Switchover to Backup – approximately 3-4 hours
- Regions wanting this Option should work directly with integrator on costs and implementation
