

# Law Enforcement Information Exchange (LInX)

## NC CJIN Board Meeting

September 22, 2016

Frank Palombo, New Bern Chief of Police (Retired)  
NCIS LInX Carolinas Program Manager

## Types of Data in LInX

### Structured Data

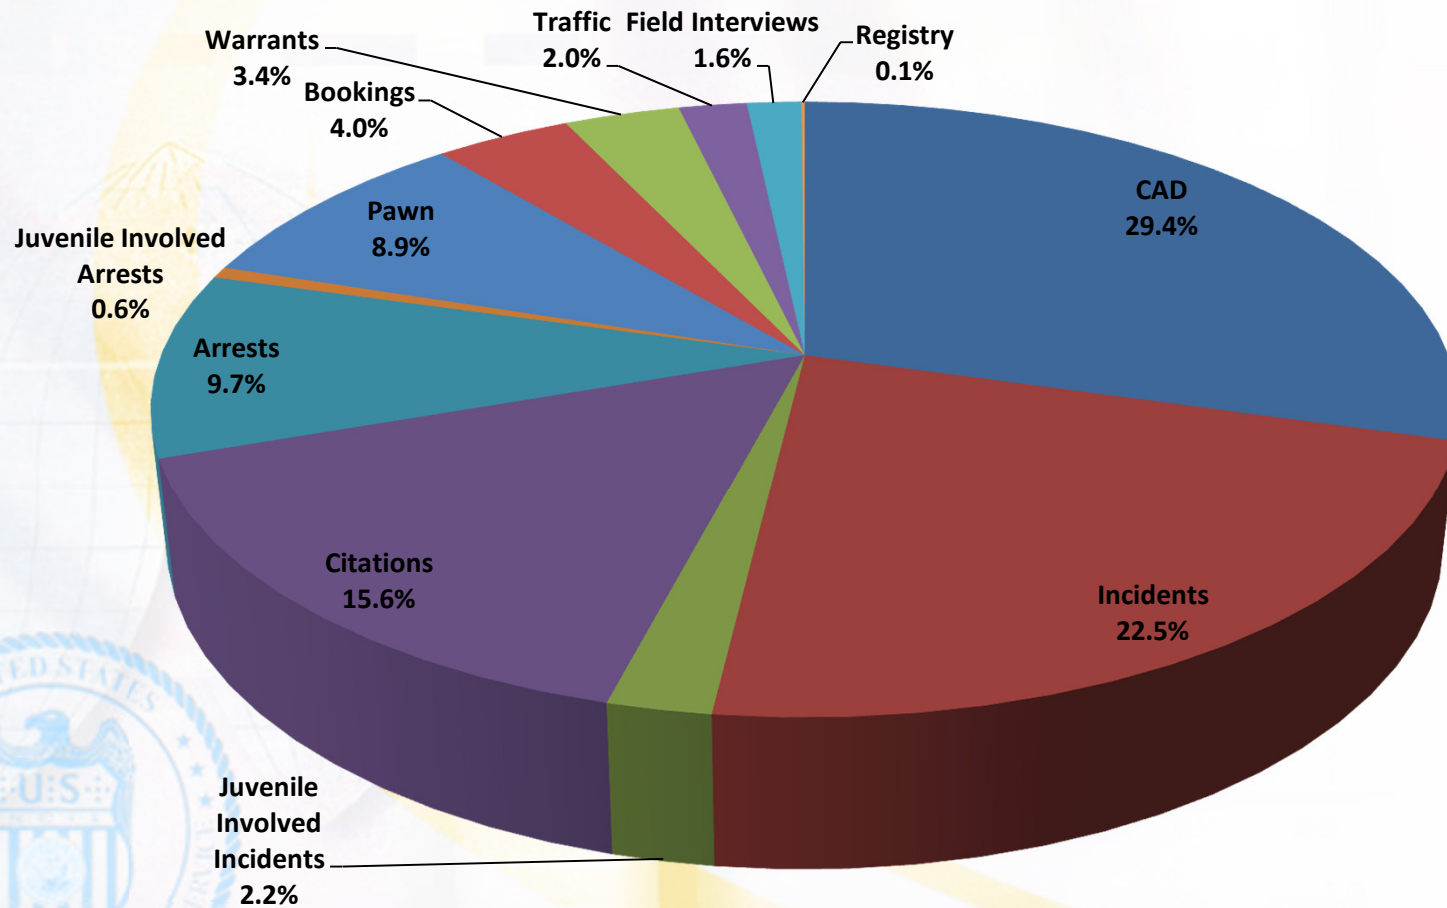

### *RMS/Investigative*

### Unstructured Data

- Incidents
  - Field interviews
  - Arrests
  - Outstanding warrants (inc. local)
  - Mugshots (statewide)
  - Jail booking records
  - Traffic crash reports
  - Traffic citations data
  - Traffic stop data
  - Parking ticket data
  - Sex Offender Registry
  - VA Adult Criminal History
  - Pawn/Property data
- Incident narratives
  - Investigative narratives
  - Supplemental reports

# LinX Record Type Percentages

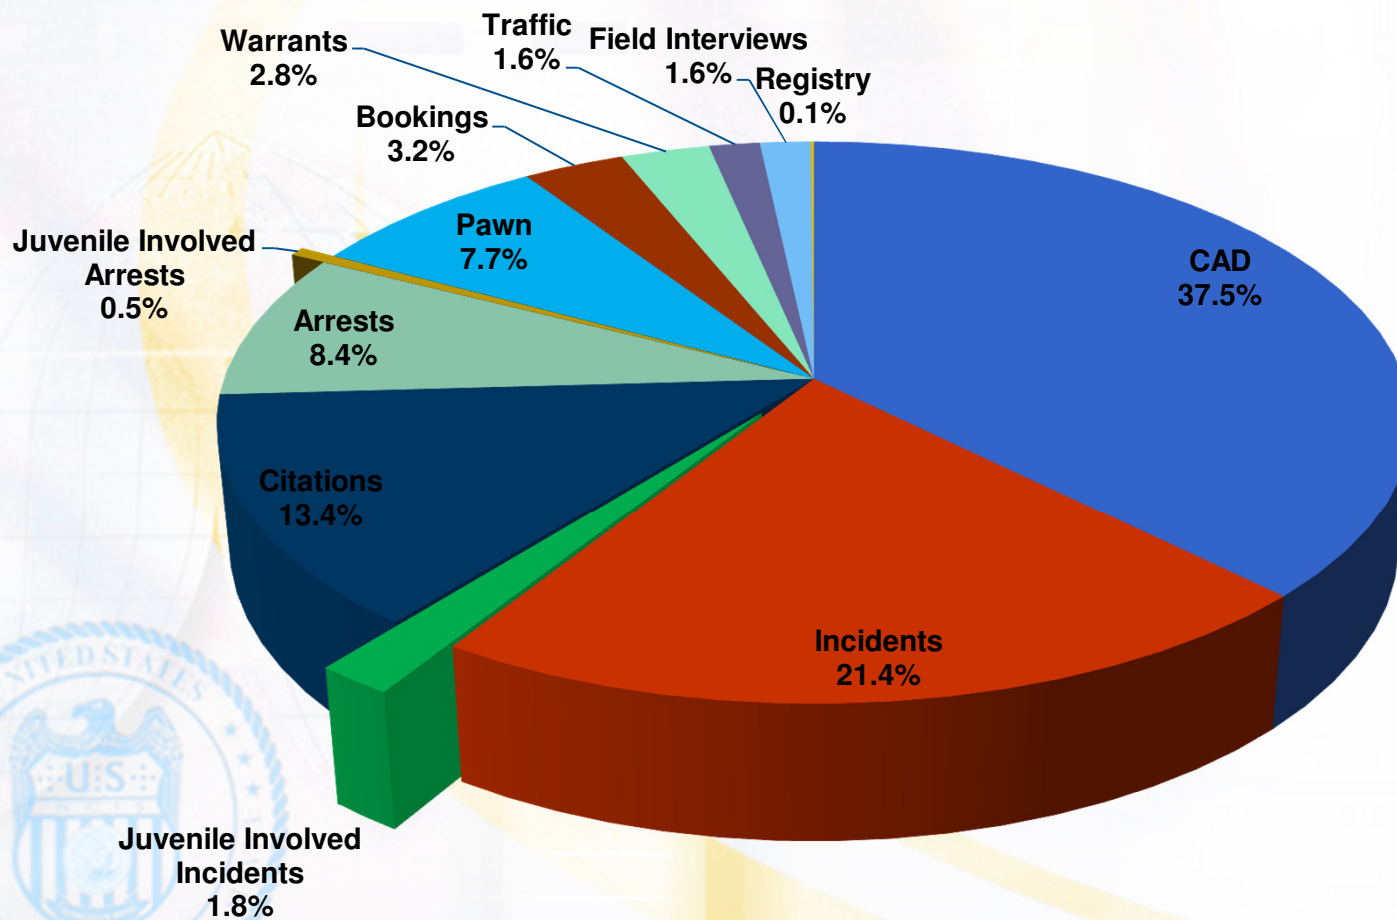

**Over 684  
Million  
Event  
Records**

**Over  
64 Million  
Mugshots**

**Over  
530 Million  
Narratives**

# LinX Record Type Percentages

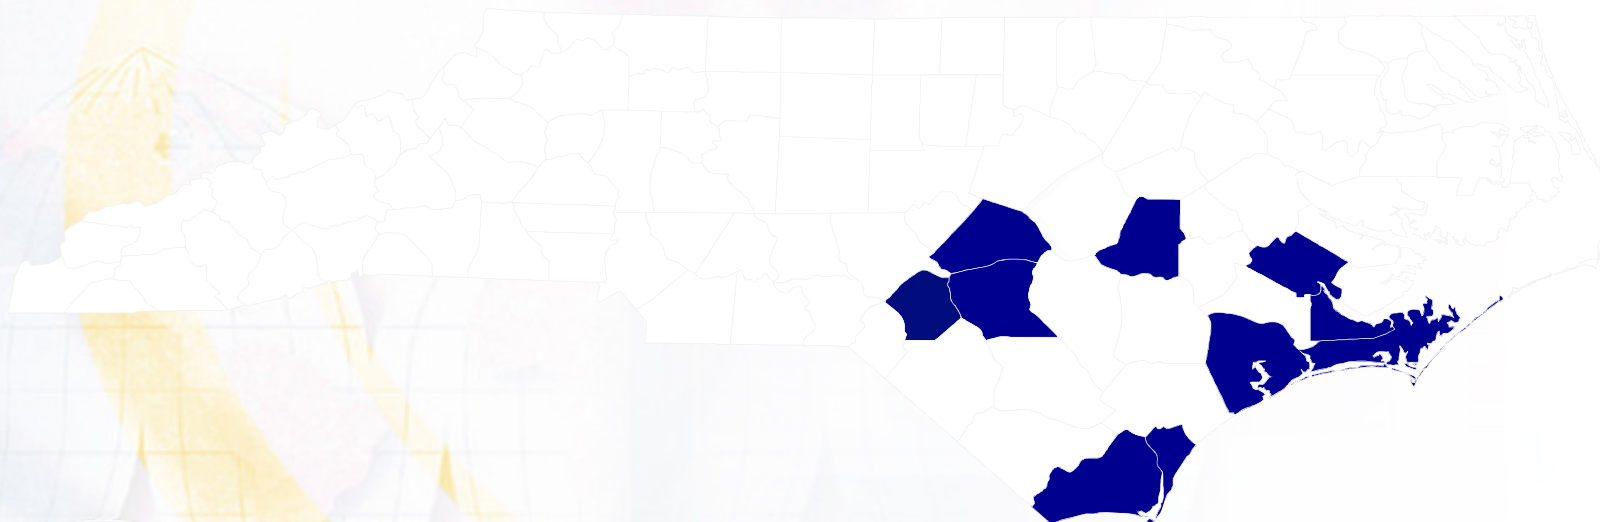

**Over 863  
Million  
Event  
Records**

**Over  
72 Million  
Mugshots**

**Over 660  
Million  
Narratives**

	USACID		NSA Police/CID
	USA LE MPs		NSA Police/CID

## Information Sharing Composite

### Legend

-  Local-Level Agency Coverage
-  State-Level Agency Coverage
-  Military Base Area
-  N-DEX Coverage

## LInX Carolinas

### ➤ Current Status:

- LInX Carolinas users now have access to law enforcement records from ~1400 agencies system wide including 13 LInX Regions, the FED Region, DDEX and N-DEX
- From May 2008 to-date, the total cost to NC taxpayers for LInX Carolinas, has been **\$401,474**
- During that time, **100%** of the LInX Carolinas annual operating and maintenance costs have been paid by the Naval Criminal Investigative Service (NCIS). Funding is forecast to continue through 2018. Future funding beyond 2018 is likely. However, all funding projections are subject to future appropriations
- LInX/D-Dex has been designated as a **Homeland Security Priority** by the Department of Defense
- There are **no licensing fees** for LInX users. The software is owned by each Region so no licensing fees can be assessed

## LIInX Carolinas

### ➤ Current Status (Continued):

- During the past 19 months, LIInX Carolinas has added approx. 146 agencies and now hosts 220 NC agencies serving approximately 76% of her population
- The NC General Assembly's appropriation of \$288,474 for the expansion of LIInX has contributed to the current increase by adding 46 agencies. When completed this will bring our total to approx. 226. We are just 5 agencies short of completion.
- The commitment of funds by the GA has allowed LIInX to grow to cover an additional 1,591,554 (15.94%) of NC's population and an additional 5,071 (18.87%) of her officers. This brings LIInX NC population coverage to an astounding 8,663,223 (84%) and sworn officers with the ability to access LIInX to 21,446 (79%)
- NCIS is currently funding Task Order 31 adding 10 new agencies to LIInX and is near completion

## CRISS COPS Grant Revision

- Crystal Cody, CMPD, has received approval for a grant revision that makes a substantial amount of money available to expand LInX participation mostly in the western part of the state
- The funds will provide for mapping of approximately 62 agencies with a population of approximately 851,085 or 8.66% and add an additional 1,750 sworn officers or 6.5%. When this phase of expansion is complete LInX will cover approximately 91.95% of NC's population (9,175,240) and 85.46% of our sworn officers (22,964)
- By this time next year we anticipate LInX will have approximately 290 NC law enforcement member agencies sharing data
- LInX Carolinas currently contributes 113.5 million Event Reports; 92.3 million Narratives and 7.5 million Mug Shots to the LInX system, ranking us 3<sup>rd</sup> overall in police records contributed.
